

Pactiva® Slim Profile Displays

Lightweight Convenience.

Redesigned from the ground up to be the most compact tabletop display ever, Pactiva now comes in seven exciting display configurations. Built for easy handling, each Pactiva unit is more than just innovative display panels. It is a complete presentation system that comes fully packed, padded, and

ready for transport in one of our newly designed durable canvas travel bags. Whether your choice is a 10-panel stacking display with backlit header and molded

stacking guides or a 3-panel mini display with removable Arch-Top header, every Pactiva tabletop is designed with you in mind. Our custom panel systems provide durable, lightweight convenience in an attractive slim profile package. Enjoy the ease and convenience Pactiva will provide for your next tradeshow or presentation experience, and with so many sizes to choose from, Pactiva is sure to have just the right fit for you.

Available in black, gray, blue, burgundy, silver, and royal blue.

18" Tall Tabletops

Pactiva collegiate size displays are ideal for venues that restrict display size. Each display is 18" tall plus the height of a removable header.

10-Panel Stacking Tabletop

One of several configurations designed for the presenter on-the-go is the Pactiva 10-panel stacking display. This complete presentation system includes a slim profile tabletop display, halogen light bar,

backlit header, and two 50 watt LumaStar Halogen Lights packed in LumaStar Light Boxes. Panels, light boxes, and header pack in the stylish, padded Pullman travel bag or molded case.

Durable, Custom Extruded Panels

Hidden under the colorful range of rich fabrics are durable, custom extruded panels that are just 1/2" thick and feature injection molded end-caps designed for stacking panels and easy attachment of halogen lights and header panel.
